

Blackwater Bulk Solids Handling

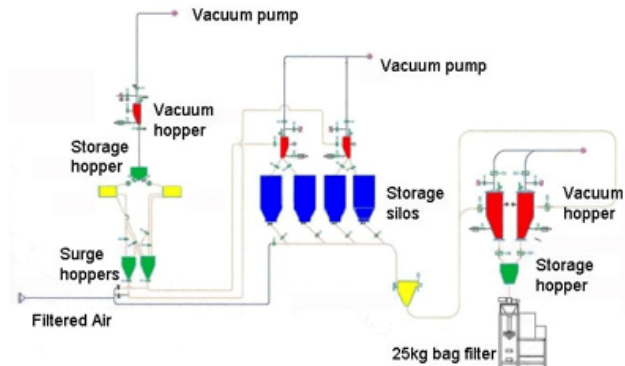

Renowned for Design and Innovation for over 35 years

With over 35 years experience Blackwater has built up significant expertise in bulk solids handling and the development of pneumatic conveying and bulk handling concepts.

What Blackwater can Offer You ?

- Raw materials or finished goods are handled from bulk truck delivery through to the packaging or bulk load out in a wide variety of configurations.
- Supply of silo hoppers, valves and blowers.
- Delivery and Installation service including risk assessment and safety method statement. Blackwater takes responsibility for total commissioning and handover.

Whatever your requirements our team of engineers and craftsmen will work together with you to implement the perfect solution for your processes

A Typical Example of a dense phase vacuum conveying system.
