

## Blackwater Chocolate Vessels

### Reducing Operational Costs without Compromising on Quality

#### A Sweet Solution for High Quality Chocolate

Our stainless steel chocolate vessels are lightweight, hygienic and guarantee product quality. Blackwater chocolate vessels have proved a competitive alternative to traditional carbon steel chocolate vessels. For example a 20,000kg design thermal plate vessel weighs 2.5 Tonnes when empty in contrast to 10 Tonnes on a traditional design.

#### What Blackwater can Offer You ?

- Vessel capacities range from 500kg to 40,000KG
- Vessels can be fitted with a special design agitation system and Blackwater thermal plate technology, keeping the product in motion, and maintaining a constant temperature to guarantee the quality of your chocolate.
- Energy saving thermal plate vessels achieve hi flow rate to allow maximum contact with the surface.
- Our light weight chocolate vessels facilitate multi story stacking saving valuable production space.

## The Blackwater Package

<b>EXPERTISE</b>	Designs and Technology based on 35 years experience
<b>QUALITY</b>	We operate to the highest industry safety and hygiene standards Blackwater is accredited to ISO 9001 / BS5750 PT1 / BS5500 / PD 5500 / ASME VIII
<b>SERVICE</b>	Complete package from design to delivery and an excellent after sales services. We offer a 3 year guarantee on workmanship and parts
